

Decorative Options

Colors and Finishes

Interior finishes include white and beige, as well as laminate woodgrains in white, soft maple, rich maple, light oak, dark oak, foxwood and cherry. All interior woodgrains have a white or beige exterior – except white woodgrain, which is available in a beige exterior only.

Exterior choices include white and beige, as well as laminate colors in Architectural Bronze, Hudson Khaki, Desert Clay, English Red, Forest Green, American Terra and Castle Gray. All exterior laminate colors shown have a white interior; American Terra is also available in a beige interior.

Grid Options

Designer grids lend an added measure of style and dimension to your patio doors. All grids are enclosed within the insulated glass unit for easy cleaning. Choose from our selection of beautiful grid profiles and patterns to design the ideal patio door for your home:

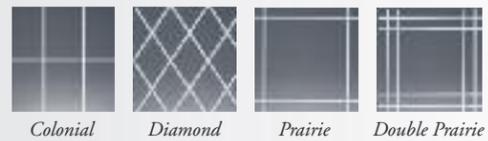

Classic Grids – available in Colonial, Diamond, Prairie and Double Prairie patterns

Contoured Grids – available in Colonial, Prairie and Double Prairie patterns

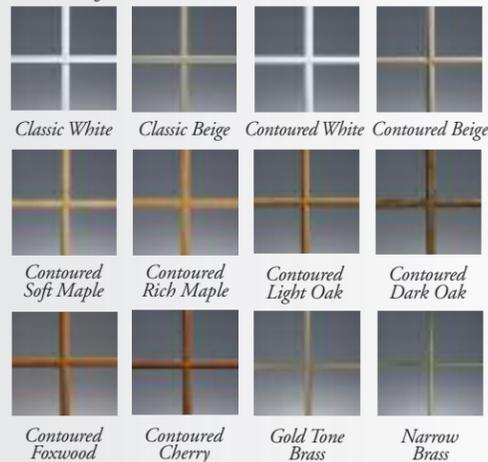

Gold Tone Brass Grids – available in Prairie and Double Prairie patterns

Narrow Brass Grids – available in a Colonial pattern

Grid Patterns:

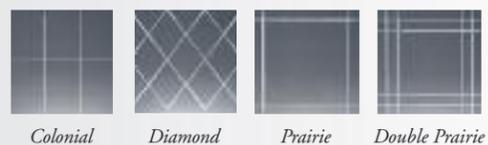

Grid Profiles:

V-Grooved Cut Glass

Add a cut or polished V-grooved glass pattern to your patio door for the perfect touch of elegance.

[†] Solid color, non-laminated windows.

The Alside Lifetime Limited Warranty

Bradenton Premiere Patio Doors are manufactured by a recognized leader in product innovation with uncompromising quality control. From the day your patio doors are installed to the day you sell your home, you can count on our reputation. And to make your buying decision easier, Alside backs all of our patio doors with a Lifetime Limited Warranty**... one of the strongest in the industry.

Quality Products for Your Remodeling Needs

If your home improvement plans include more than patio doors, consider Alside's full selection of premium vinyl windows. Choose from single-hung, double-hung, sliding, casement, awning, bay and bow, garden, picture and specialty shape windows.

For more than 60 years, Alside has provided world-class building materials for homes and businesses throughout the country. When you choose Alside products for your home, you can be assured of exceptional craftsmanship and lasting value backed by decades of manufacturing expertise.

BRADENTON Premiere™

Ultra-Premium 6200 Patio Door

The signature style of exceptional craftsmanship.

Go Green

Exceptionally energy-smart and weathertight, Bradenton Premiere Patio Doors not only reduce fuel consumption needed to heat and cool homes, they also boast a long service life and achieve optimal material use and minimal waste in production. Virtually all in-plant vinyl scrap is recycled into other useful products, further reducing the environmental impact of waste. And because vinyl never needs to be painted, it helps eliminate paint, stain and other maintenance-related products from entering the waste stream or releasing volatile organic compounds (VOCs) into the atmosphere. Vinyl patio doors and windows also are eco-friendly because vinyl resin is derived largely from common salt – a sustainable and abundant natural resource! 

BRADENTON *Premiere*

Ultra-Premium Patio Door

With equal parts, impressive strength and aesthetic appeal, the Bradenton Premiere™ Patio Door achieves a higher level of quality and style for your home. Its striking slimline design is visually elegant yet deceptively strong and protective. A heavy-duty, 100% PVC, steel-reinforced frame combines with fusion-welded PVC sashes to deliver outstanding structural integrity and durability. Double continuous weatherstripping, multi-chambered extrusions, and a 1" insulating glass unit together achieve maximum thermal efficiency, further enhancing year-round comfort and energy savings.

The weathertight fit and powerful build of this best-in-class patio door make it an excellent selection for your well-appointed home.

From the first glance, the three-panel Bradenton Premiere Patio Door creates an air of refinement. Its crisp, clean-line design and ample glass exposure invite natural light and warmth into your home, while also creating a spacious view to the beauty of outdoors.

Superior Energy Savings and Year-Round Comfort

While you may be drawn to the Bradenton Premiere Patio Door for its superb style and functionality, you'll also appreciate its outstanding thermal protection and energy-saving features. Precision-engineered for maximum energy efficiency, Bradenton Premiere will insulate and protect your home from harsh weather while helping to lower your heating and cooling costs.

For maximum energy savings, upgrade your patio door with a ClimaTech insulating glass package, featuring Low-E glass, argon gas† and the PPG Intercept® Warm-Edge Spacer System. The superior thermal performance of this insulating glass unit can help lower your energy costs while further reducing the consumption of fossil fuels. Many ClimaTech insulating glass packages meet the latest ENERGY STAR® requirements. Consult your window professional for the optimal glass package required for your home and climate zone.

The warmth and appeal of natural sunlight will lend a cheerful ambiance to any room.

Ease of use and smooth operation – for any patio door, it's essential.

With Bradenton Premiere, there's no need to worry about struggling with a cumbersome door panel or trying to keep the door on its track. This masterfully crafted patio door glides effortlessly on a structural composite roller system. Likewise, its heavy-duty extruded aluminum screen features four adjustable rollers to ensure easy-slide action. The Bradenton Premiere Patio Door not only will endure years of everyday wear and tear, it will enhance your home both inside and out.

Low-E glass filters long-wave radiation from the sun. This reduces solar heat gain from the summer sun, helping to keep your home cooler.

Low-E glass takes on a new duty in winter months. It lets warm solar rays into your home, preventing indoor heat from escaping.

Contemporary handles feature single-lever, dual-point locking system.

Beige

Aside offers a variety of ENERGY STAR qualified products. Consult your window professional for the optimal glass package required for your home and climate zone.

Bradenton Premiere Patio Doors offer many features to complement your home.

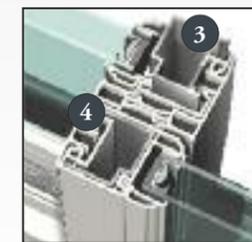

1. Mainframe and sash extrusions will never chip, peel, crack or warp. Made with premium raw materials, the vinyl color is formulated throughout so the beautiful luster lasts.
2. Sturdy, extra-thick, multi-chamber frame construction enhances thermal performance and strength.
3. Metal-reinforced sash components increase strength, rigidity and structural integrity.
4. Weatherstripping in extra-deep integral interlocks at meeting stiles increases insulation and helps block air infiltration.
5. 1" insulated glass unit with PPG Intercept Warm-Edge Spacer System saves energy by reducing the transfer of heat and cold.
6. Structural composite roller system ensures quiet and easy operation of the door panel.
7. Low-profile, anodized aluminum sill cover for extra strength and durability.
8. Coved glazing bead provides the authentic appeal of real wood.

Plus these additional features:

- Triple-screw, butt-joint frame construction creates precision-fit corners for maximum strength and weathertight performance.
- Heavy-duty knock down frame for easy installation at the job site.
- Strong interlock at the meeting rail offers increased insulation, comfort and security.
- Dual-point locking system ensures a tight fit and added security.
- Heavy-duty extruded aluminum screen features four adjustable rollers for smooth gliding.
- Available in 2-lite styles in 5', 6', 8' and Wisconsin-style widths; 3-lite styles in 9' and 12' widths; and a 4-lite style in a 12' width, with center panels that open to each side.
- Choose from a variety of colors with left or right moving panel.

Enhance your patio doors with these options:

- Various ClimaTech® insulated glass package options for enhanced insulating performance.
- Interior vent foot lock allows limited and secure opening of the door for ventilation.
- Keyed exterior lock offers convenient access from outside the home.
- Optional metal finish interior handsets for added beauty and visual appeal.
- Decorative grids or V-grooved glass patterns for enhanced beauty.
