#### ***Outstanding beauty.***

AllianceT4 is loaded with realistic look-of-wood details. Deep V-grooves and a milled-like flat surface create the look of individual bevel-edged boards. A traditional 4" exposure width adds appeal. Choose from a richly detailed wood grain or a beautiful matte surface texture. A wide choice of low-gloss colors lets you work with all Alside siding and trim combinations.\*

#### ***Effective ventilation.***

AllianceT4 uses an attractive "outward weave" design to provide air flow needed for attic ventilation. Wood-grained panels are fully vented; smooth panels are center vented.

#### ***Striking vertical accents.***

Use solid AllianceT4 panels to accent entrances, gable ends or even entire walls.

#### ***Easy-care convenience.***

AllianceT4 is made from durable premium vinyl, so it won't warp, rot or peel. No staining or painting either – just rinse it occasionally with a garden hose to restore like-new appearance.

#### ***Premium quality, backed by warranty.***

Choose AllianceT4 with confidence, because it's made by quality-leader Alside and backed by a strong lifetime limited warranty.†

\*Matte texture finish available in Glacier White only.  
†See printed warranty for complete details.
