

SUPERSPAN™

Heavy Gauge Premium Vinyl Soffit

Premium Soffit Systems

*The beauty and strength you
need for the long run.*

Alside®

*Super Span™ . . .
extra thick, extra rigid soffit.*

Extra thickness helps keep long porch ceilings straight and level.

*Super Span, the heavy gauge
premium vinyl soffit is thicker than
ordinary soffit, giving it the strength
and rigidity needed to span porch
ceilings, projecting entryways and
other extended overhangs. Super Span
extra thick soffit is as beautiful as
it is strong.*

BASF BASF helps make Super Span better with Luran® S ASA weatherable polymers, which provide superior fade resistance and better performance on richer colors.

*Super Span . . .
the ideal soffit for tough
installations.*

Super Span heavy gauge premium vinyl soffit is 20% thicker than ordinary soffit, giving it the strength and rigidity needed to span porch ceilings, projecting entryways and other extended overhangs.

The extra thickness, combined with a weather-tested hurricane locking system, also makes Super Span an ideal soffit for coastal locations and other high wind areas.

Super Span . . . extra thick and extra rigid soffit panels.

Outstanding beauty.

A natural grain texture, deep V-grooves and realistic shadow lines provide the warmth and richness of all-wood soffit. A 5" exposure creates a feeling of openness, even in confined entryways. Choose from 15 contemporary colors, all with an elegant low-gloss finish.

Premium ventilation.

Fully vented Super Span panels make it easy to provide ample airflow to your attic. An advanced "lancing" design assures maximum visual appeal and full panel strength and rigidity.

Design versatility.

Use solid Super Span panels as vertical siding to add distinction at entryways, gable ends and other vertical accent areas.

Easy-care convenience.

Super Span is made from durable premium vinyl, so it won't warp, rot or peel. It never needs staining or painting – just rinse occasionally with a garden hose to restore its like-new beauty.

Premium quality, backed by warranty.
Super Span is made using premium materials and advanced manufacturing techniques. It's fully backed by a strong lifetime limited warranty.*

**See printed warranty for complete details.*

Used as a vertical siding, Super Span helps dramatize a home's vertical lines (left). Beautifully vented panels provide continuous airflow to help cool attics (below).
